INDIA, TELEGRAPH OFFICE, January 4th, 1854.

Steamship "Canada," from Liverpool about 1

o'clock, P. M., Saturday, 24th, with 50 through

passengers, arrived at Halifax Wednesday, at 9

o'clock, A. M.

The steamship Baltic arrived off Liverpool at

6 o'clock, Thursday night, Dec. 23d, and arrived

at the wharf at 2 o'clock, Friday morning.

INDIA AND CHINA.

[By SUMMARINE AND EUROPEAN TELEGRAPH.]

The following account was telegraphed from

Tripoli, the 23d of December, concerning India

and China:

India dates from Calcutta of the 20th of No-

vember, Shanghai 2d, and Bombay 23th have

been received.

Accounts from Barmah are more satisfactory.

In Peking tranquillity prevails and disorders were

disappearing. Famines no longer prevail.

Viscount Melville is Governor in place of the

late Gen. Godwin.

The Peshawar force has been strengthened.

Trade in India, East.

Exchange at Calcutta, 2s. and a penny.

From China, we learn that the insurgents

keep firm possession of Shanghai, but that they

have been defeated by Imperialists at Amoy.

The Canton market has improved.

Exchange at Canton, 6s. 2d. Shanghai, 6s. 6d.

TURKISH WAR.

It was credibly asserted that the combined

English, French and Turkish fleets entered the

Black Sea, on the 10th of December. Sup-

posed destination, Sebastopol.

Three ships from each squadron were left to

guard the approach to Constantinople.

The fleet having frequently declared that the

entry of ships of war into the Black Sea was

equivalent to a declaration of war, the with-

drawal of the Russian ministers from Paris and

London is immediately looked for. On the

other hand, it is semi-officially announced from

Vienna, that the fleets enter the Black Sea on

a peaceful errand, to prevent any further colli-

sion.

There is an extraordinary rumor current that

the destruction of the fleet at Sinope transpired

in Constantinople before the news of the terrible

disaster could possibly have reached there by

the usual mode of conveying intelligence. The

Turks imagine the affair was planned with the

intent of the British to intimidate them into

accepting terms of peace.

It appears that the Russian Admiral observed

the Turkish fleet at anchor in Sinope on the

23d of November, and although outnumber-

ing the Turkish fleet, he sent for three more

units of battle ships which joined him on the

27th. The battle was fought on the 30th.

News that the Turkish fleet was at Sinope was

carried to the Russians by an Austrian steamer.

Diplomats are as busy as ever. The Paris

Despatch publishes a document purporting to be

the letter of instructions sent by the four pow-

ers to their Ambassadors at Constantinople.

The Monitor recopies it from the Debates.

Cannot say whether it is spurious or genuine.

Said letter refers to the protocol of Dec. 5th,

and is in the collective name of Austria, France,

Great Britain and Prussia. It hopes that the

Porte will circumscribe the difficulty between

itself and Russia within its true limits, and

avoid introducing new elements into the war.

It calls on Turkey to declare that she is still

desirous of a peaceful settlement and accepting

the assurances of Russia that no infringement

of the Sultan's sovereignty is intended, is pre-

pared to discuss proposals for re-establishing

peace and evacuating the Principalities. It

suggests that the Russian and Turkish Plen-

ipotaries entrusted with this negotiation

should not treat except in presence of the re-

presentatives of the four powers, and that a

city in a neutral country be selected for the

session of the Conference, and, further, that

the opening of the Conference be the signal for

an armistice. This despatch the Ambassa-

dors are ordered to read to Reshid Pasha and

to impress it on his attention. The Despatch

so publishes the protocol itself, precisely as

above, but with this important sentence in ad-

dition: "that the existence of Turkey within

the limits which treaties have assigned her,

have in fact become one of the necessary con-

ditions of European equilibrium and the pres-

ent cannot in any case involve modifica-

tion in the territorial circumscriptions of the

two empires, calculated to alter the state of

possession which time has consecrated in the

East, and which is equally necessary for the

tranquillity of all the other powers. Turkey is

therefore invited to state on what terms it will

consent."

From Constantinople the 13th, we learn that

the Courier bearing this note and letter had ar-

rived and the Ambassadors of the four powers

forthwith proceeded to act as directed.

The Sultan's reply was expected to reach

Vienna on the 26th. Letters say that he refus-

ed to accept an armistice, but consents to send a

representation to the conference.

The German papers mention a doubtful re-

sponse to the conference.

more that the Czar also consents to send a re-

sponse to the conference.

The Paris Union denies this, and states that

the note had not even been officially forwarded

to the Czar.

On the line of the Danube there has been

some fighting. On the 4th the Russians at-

tacked the Turkish position at Kalafat and

forced the outer entrenchments, but were eventu-

ally repulsed. The carnage was great on

both sides, in killed and wounded 4000 are

stated. This must be received with caution for

a Russian attack on Kalafat would be the sig-

nal for the Turks to attack Ragusa, Ohrid-

govo, Aleniza, and Hirsowa so as to cause the

Russians to divide their force.

On the 13th two Russian steamers, towing

four gunboats, unsuccessfully attacked the

Turkish position at Matschum, and were forced

to retire with a severe loss.

The reason why part of the Russian force went

to Crimea was on account of an insurrection there

in favor of Turkey, consequently the Province

of Besa Atsiba, Kherson and Caucas are placed

by the Russians under martial law.

Nothing really takes place from Asia.

Reliable private accounts from Erzeroun,

Nov. 17th, confirm previous statements of

Turkish success, which had induced the main

body of the Turkish army to cross the Geor-

gian frontier and march upon Teflis.

The Georgians everywhere welcomed the

Turks.

A Turkish force occupied Erivan, which the

Russians had abandoned on their approach.

The Turkish defeat at Akhalzik is doubtful,

although a battle was certainly fought there

Nov. 26th with considerable slaughter, although

without reliable accounts.

The general tone of advice state that the

operations of the last week in November were

unfavorable to the Turks. Gen. Andronikoff

has possibly relieved the fortress of Akutche

and another division under Prince Rebutoff

has succeeded in repulsing a Turkish force back

upon Kars. The Russian Bulletin says with

loss of cannon and camp.

The rupture between Persia and Great Brit-

ain happened anterior to the declaration of war

by Persia against Turkey, and was caused by

insults offered to the British Embassy. Persia's

declaration against Turkey was caused by the

direct promise of the Czar, to remit the debt

due, and to restore disputed territory. The

Shah has placed 40,000 troops at the Czar's dis-

posal, and asks for a Russian General to com-

mand them. The Persian Minister after break-

ing off relations with the Porte retired to Bag-

dad. The relations between the Austrian Min-

ister and the Divan are daily becoming col-

dered.

The British Ambassador has ordered Mr.

Gardiner, British Consul at Jassy to retire from

the Principality.

The Russian government orders that all for-

merchandise ships going to Ottoman ports in

the Black Sea shall be searched, and all carry-

ing stores or munitions of war, shall be seized

although sailing under a neutral flag. Turkey

on the contrary has extended the term of for-

ty-five days, ere Russian merchantmen shall be

declared prizes.

Turkey has forbidden the exportation of grain

but contracts will be permitted to be completed.

ENGLAND.

A Cabinet Council met on the 23d. Lord Lau-

derdale was not present, transpired that Sir George

Grey pleaded ill health as a reason for declining

proffered post of Home Secretary. Among other

rumor offers it to Sir James Graham, Sir Charles

Wood and Lord Palmerston. It is said that Palmer-

ston was invited to resume office, the reason being

that Lord Glenard would resign if Palmerston

was excluded from the Cabinet. The people seem

anxious that Aberdeen should give up and that

Parliament be summoned.

It is said that government has not elaborated

the promised measure of Parliamentary reform.

Definitely it is understood to have prepared a plan

which he will bring forward if he gets a chance.

The liberal papers complain that Prince Albert

is making himself too busy in the affairs of the

army. Some attribute Palmerston's resignation to

a cabal in that quarter. There are complaints also

that Albert interferes in politics.
